

## NOTICE

Foster brook, Schoolhouse brook, Main brook, Brown brook, Mill brook, from the age brook, and their tributaries, sources to where they empty into Lake in the town of West-  
are closed by the State of Vermont for fish, under section 408, Acts of 1892, and for attempting to fish in any of these or their tributaries is forbidden under penalty of \$50.00.

HENRY G. THOMAS,  
Com. of Fisheries and Game.

## FOR SALE!

Have on my hands a farm from my brother's estate and wish to close it out at a reasonable price, both from the standpoint of myself and purchaser. The farm is in the town of Barton, and contains 275 acres of fine land. It is known as the Gay farm, and is well watered. The farm is in good shape and the pasture is well watered. There is a sugar orchard of 2,000 trees on the farm and there is also two apple orchards. There are two sets of buildings on this farm which could be divided into two farms if desired, but can be easily carried on as one. The set of buildings contains a new 45x10 barn with silo. The farm contains considerable wood and lumber. Telephone line and R. F. D. of mail, village and railroads in easy reach. Farm will be sold at once with stock and tools, and on suitable terms. If you are interested, call on me.

C. E. GAY, Barton Landing, Vt.

## COMMISSIONERS' NOTICE.

## Estate of Elisha B. Locke

Under signed, having been appointed Honorable Probate Court for the District of Orleans, Commissioners, to receive, collect, and adjust all claims and demands of persons against the estate of Elisha B. Locke, late of Barton in said district, deceased, and all claims exhibited in order thereon, hereby give notice that we will meet for the purpose aforesaid, at the office of H. B. Smith, Barton Landing, on the 30th day of May and day of August next from 10 o'clock p. m. to 4 o'clock p. m., each of said days, and will hear from the 16th day of February, 1906, is the time limited by said Court for creditors to present their claims to us for examination and allowance.

H. B. SMITH, Commissioner.

E. C. BROWN, Commissioner.

## APPLICATION FOR LICENSE TO SELL

## INTOXICATING LIQUORS

Barton, Vermont, April 9th 1906.  
Notice is hereby given under Act No. 115 of Vermont, Session of 1904, that Arthur Austin of Barton in the County of Orleans is applying for a license of the FIFTH CLASS to sell intoxicating liquors for medicinal purposes at his drug store on Main Street in the village of Barton Landing on the first floor of Postoffice Block owned by L. D. Webster said Barton.

Barton, Vermont, April 9th 1906.  
Notice is hereby given under Act No. 115 of Vermont, Session of 1904, that Foster Kinney of Barton in the County of Orleans is applying for a license of the FIFTH CLASS to sell intoxicating liquors for medicinal purposes at his drug store on Main Street in the village of Barton Landing on the first floor of a business block owned by Dwinell & Johnson of said Barton.

A Public Hearing on the above applications will be given by the undersigned at the hotel said village of Barton Landing on the 24th day of April A. D. 1906 at ten o'clock in the forenoon.

O. H. MORGAN, Selectmen  
N. M. LEWIS, of the  
C. N. LEONARD, Town of Barton

## John Keer's Estate.

STATE OF VERMONT. In Probate Court, Orleans District, ss. held at Newport, in said District, on the 13th day of April, A. D. 1906.

J. B. Cassidy, Administrator of the estate of John Keer, late of Barton, in said District, deceased, makes application for license to sell the real estate of said deceased, described as follows, to wit:

The late home place of said deceased, situated in the said town of Barton, representing a sale thereof is necessary to pay the debts against said estate and expenses of administration.

Whereupon, it is ordered by said Court, that said application be referred to a session thereof, to be held at the Probate Office in Newport, on the 2nd day of May A. D. 1906, for hearing and decision hereon. And, it is further ordered that notice be given to all persons interested by publication of the same three weeks successive in the Orleans County Monitor, a newspaper published at said Barton, previous to said meeting appointed for hearing, that they may appear at said time and place, and show cause, if any they may have, why said license should not be granted.

By the Court. Attest.

F. E. ALFRED, Judge

## IN HUB MARKETS

## Quotations on the Leading Products in Demand

Boston, April 19.—The butter market is declining slowly and, as a consequence, the demand has been light, and confined to the satisfying of immediate needs. Receipts are increasing, though not yet excessive. Choice northern creamery, 23¢@24¢; western, 23¢@24¢; northern dairy, 19¢@21¢.

Prices are well sustained in the cheese market, as the demand is fair and the stocks much reduced. York state, 14¢@14½¢; Vermont twins, 13¢@14¢.

The egg market took a turn upward and prices are now above the quotations of a week ago. Choice henery and nearby, 21¢@22¢; eastern, 20¢@21¢; western, 19¢@20¢.

The movement of fruits and vegetables has broadened considerably in the local wholesale market and increasing demand is now looked for. A week or two ago dealers found it easier to buy than to sell apples, but now just the reverse is true. Prices do not change much, but the feeling is firmer and several sales of fancy lots are heard of in excess of quotations. The best grades of russets now range up to \$5 a barrel, but sales of inferior lots are reported as low as \$3. Once in a while \$5 is secured on Ben Davis apples, but most of them do not bring that. A few barrels of fancy northern spies sold for \$6.50 and an unusually choice lot for \$7.50, but these quotations are far above the average.

The sharp advance in potatoes a week ago caused heavy shipments, and later they were too plenty and consequently cheaper, but the supply was reduced and prices stiffened. Sweet potatoes are scarce and high. Asparagus is rather more plenty, but still high. Cabbages are a bit easier under larger receipts. Kale and spinach are very plenty and considerably cheaper than they were a week ago. Dealers find it hard to clean the market of domestic onions, though they are offered very low; the best ones are sprouting and no one wants them in that condition. Hot-house rhubarb is scarce and higher, and the California offerings are very poor. Most of the tomatoes on hand are ordinary and sales at the outside quotation are rare. Turnips are higher and firm.

Apples—Baldwins, fancy, \$4.50@5 a barrel; No. 1, \$4@4.50; No. 2, \$3.25@3.75; russets, No. 1 Roxbury, \$4@5; No. 2, \$3@3.50; Ben Davis, \$4@4.50; northern spies, \$4.50@5.50.

Strawberries—Florida choice, 30¢@35 a quart; ordinary, 20¢@25.

Potatoes—Aroostook Green mountains, 85¢@87c a bushel; Hebrons, 83¢@85c; rose, 85c; sweets, Jersey double heads, \$2.25@2.50 a barrel; vineyards, \$4.50; baskets, \$1.25@1.50.

Beans—Southern string beans, \$5@6 a crate; butter beans, \$4.50@5 a crate. Cabbage—New southern, \$2.75 a crate; old drumhead, \$2.50@3 a barrel. Celery—California, \$2 a dozen bunches.

Cucumbers—Hothouse No. 1, \$7@8 a box; No. 2, \$3@5.

Greens—Spinach, \$1.50 a barrel; kale, \$1 a barrel; beet greens, 50¢@75c a bushel; dandelions, \$1.12¢@1.25 a bushel.

Lettuce, etc.—Lettuce, 25¢@60c a dozen heads; romaine, 75c a dozen heads; parsley, \$1.25 a bushel; watercress, 50c a dozen bunches; mint, 60c a dozen bunches.

Onions—Domestic, 40¢@75c a bushel; Spanish, \$3@3.25 a crate; Bermudas, \$2.60 a crate; leeks, \$1 a dozen bunches. Squashes—Western Hubbard, \$60 a ton.

Tomatoes—Native hothouse, 30¢@40c a pound; southern, \$3.50@4 a crate. Turnips—Yellow, \$2@2.25 a barrel; French white, \$2.50 a bag; white egg and purple tops, 50¢@81 a bushel.

Miscellaneous—Carrots, 85¢@1 a bushel; parsnips, 75¢@81.25 a bushel; radishes, \$1.75@2 a box; beets, 75¢@81 a bushel; bunch beets, \$1.50@1.75 a dozen bunches; peppers, \$2 a crate; eggplants, \$3@3.50 a crate; oyster plants, \$1@1.25 a dozen bunches; okra, \$2.25 a crate; mushrooms, \$2@2.50 a basket; artichokes, \$2.50 a bushel; hothouse rhubarb, 85¢ a pound; California, \$1.75@2 a case; asparagus, California, \$6@7 a dozen bunches; South Carolina, \$6@7 a dozen bunches.

There is a firmer market for pork provisions, though the export business has fallen off a great deal and is now about down to normal.

Fresh beef is still quiet. Extra heavy sides, 73¢@8c; good, 71¢@77c; light, 70¢@74c; heavy hinds, 93¢@10c; good, 91¢@93c; light, 90¢@94c; heavy fores, 54¢@6c; good, 51¢@54c; light, 43¢@45c.

There is a firm market for lambs; muttons and yearlings are quiet; veals are very steady. Spring lambs, 9¢@10c; fall lambs, 8¢@9c; yearlings, 7¢@8c; muttons, 7¢@8c; veals, 11¢@12c.

Poultry is quiet, with large receipts, and choice fresh killed selling at moderate prices. Frozen stock is in good supply and is somewhat slow of sale. The quotations are: Western turkeys, 19¢@20c; large northern chickens, 18¢@20c; medium, 14¢@16c; large western chickens, 14¢@15c; medium, 12¢@13c; northern fowls, 15¢@15½c; western fowls, 13½¢@14c; western capons, 16¢@18c; northern capons, 20¢@22c.

The best grades of hay are still firmly held, though the demand is only moderate; straw is steady, without material change in prices; millfeed is very firm at: Hay No. 1, \$17@18; low grades, \$13.50@15; ryegrass, prime, \$13.50@14; oat straw, \$8.50@9.50.

The unexpectedly bullish government report on wheat was the principal factor in bringing about a material advance in the prices of futures in the Chicago market.

## OUR FARMERS.

"Vermont farmers are in a fair way to become bewildered over so much attention with 'better farming' specialists and 'greater Vermont' agricultural meetings and the like."—Barre Times.

But they are not of the quality their antecedent stock often demonstrated itself to be if they do not rise equal to the occasion and improve their condition as the result of it.—St. Albans Messenger.

## BETTER FARMING SPECIAL.

This train was inaugurated by the Boston & Maine railroad and Editor Myrick of the New England Homestead and was operated without expense to the state or anyone except the railroad and the New England Homestead. It began its tour of Vermont Monday, after having been through portions of Massachusetts and New Hampshire, and completed its Vermont trip Saturday, having visited every important station between Newport and Vernon. The train was in charge of J. S. English, one of the attaches of the passenger department of the Boston & Maine road, and the Homestead was represented by G. C. Sevey. During the Vermont tour Prof. J. L. Hills, Wm. Stuart, L. R. Jones and C. H. Jones of the faculty of the State Agricultural College accompanied the train and gave lectures. Three students from the college assisted in distributing the experiment station bulletins and in other work. Others who accompanied the train and gave lectures were: George T. Aitken, secretary of the Board of Agriculture; Ernest Hitchcock of Pittsford, a member of the State Board of Agriculture and the state forester; T. L. Kinney of South Hero, ex-president of the Vermont Horticultural Society; W. A. Hunter, secretary of the New England Cooperative Milk Producers' Association; Dana H. Morse of Randolph of the Board of Agriculture and Ivan C. Weld of the New Hampshire Agricultural College. Several Boston press representatives were present and many Vermont editors accompanied the train for several stations.

The train consisted of four special cars, the first containing special specimens, and in this car lectures on milk were given. The second car contained horticulture and insect exhibits and in this car lectures on forestry, fruit growing, potato growing and spraying were given. The third car was labelled, "Animal Husbandry and Dairying" and lectures were given on the various subjects of milk production, selecting the dairy cow, feeding, testing the herd, etc. The last car was marked, "Farm Crops and Fertilizers" and talks on grain growing, clover, silos, and fertilizers were given.

The dairy husbandry and fertilizer cars were the most patronized in this territory, which shows that dairying has undoubtedly the greatest claim on the people of this section. The editor was privileged to accompany this train some distance and there is no doubt but that much good was gleaned from the talks on various subjects and the discussions entered into by the lecturers and the visiting farmers. After the talks the listeners were invited to ask questions, which many did, and they were answered to the best of the ability of the speaker. After the speaking and discussions a chance was given to visit the exhibits and here again explanations were made when visitors so requested.

The stops were about 45 minutes at a place but every minute of the time was utilized. During the stop at three stations the writer was on the train and saw about 2000 people visit the exhibits and nearly this number listened to the lectures.

The crowd at Wells River, St. Johnsbury and Lyndonville numbered about 500, at Sutton and other smaller stations about 200 were present. At Barton and Barton Landing the largest crowds the train had yet encountered in Vermont were present. Fully 800 met the train at both these stations, and about 200 at Coventry and 500 at Newport. At Barton and Barton Landing the schools were dismissed for a short time to visit the train and did so in a body. Prof. Hills was delighted to see the children and remarked that they were the future farmers and farmers' wives and they should be taught the principles of agriculture and become interested in the work of farming.

The promoters of the project are highly pleased with the result of the train, and those most interested in the work regard it as a fine thing. The one drawback was the short stops however this train was but a trial, it was not known whether the farmers would turn out or not and after the schedule was made they were obliged to run to that schedule. When those in charge were interrogated as to the probability of another "farmers' special" they remarked that, "If the people demand it, as they seem to do, it will probably be run again another spring."

## GENERAL NEWS.

Three Negroes Lynched.  
A white mob stormed the jail at Springfield, Mo., early Sunday, took out three negroes held for crime and lynched them, burning their bodies. They protested innocence. Arrests of the ringleaders have been made and the most strenuous efforts will follow to punish them.

Vesuvius Quiets Down.  
The eruption of Mount Vesuvius subsided last week very quickly, and there now seems no further danger. People who were driven from their homes have returned and are trying to repair or restore them. It is thought that the heavy fall of volcanic matter will greatly enrich the land.

Gorky Falls into Disrepute.  
Maxim Gorky, the Russian peasant author, who arrived in New York last week, was lionized by high literary lights until it was discovered that his woman companion who had posed as his wife was really a Russian actress instead. Thereupon Gorky's engagements were cut off and he was evicted from several hotels in succession.

Operators Won't Concede a Riot.  
All efforts to compromise the anthracite mining differences have ended in failure. The operators Tuesday made a final reply to the miners in which they reiterated that they would only agree to arbitrate as to whether there was anything to arbitrate or not, holding the strike commission's findings of three years ago to be binding unless new conditions have arisen. They say they have nothing further to offer. The hard coal mines continue idle, save a few of them. There was a serious riot Monday at the Windber mines near Johnstown, Pa., caused by the effort of several thousand miners to rescue comrades who had been arrested by the constabulary. Finally, the latter opened fire, killing three men outright and wounding many. The mob was then dispersed with fire hose. Guards have been poured in, though excitement continues.

\$100 REWARD, \$100.  
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & Co., Toledo, Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

PROBATE COURT.  
Stephen Vance estate, Albany. Albert N. Vance appointed administrator. Elmer E. Andrus and A. R. Miles appraisers and commissioners.

Martin W. McCue, insane, Greensboro. Inquisition held, and said Martin W. McCue adjudged insane. Thomas W. Gebbie appointed guardian.

John Kerr estate, Barton. Administrator applies for license to sell real estate. Referred to May 2, 1906.

William W. Foster estate, Denver, Colo., to wit, Irasburg. Executrix settles her account. Decree of distribution made.

Carlos D. Gilbert estate, Barton. Commissioners' report returned and accepted. John Duso estate, Westfield. Administrator's inventory filed.

Nellie Davis estate, Lowell. Administrator's inventory filed.

Don't tie a cough or a cold up in your system by taking a remedy that binds the bowels. Take Kennedy's Laxative Honey and Tar. It is different from all other cough syrups. It is better. It opens the bowels—expels all cold from the system, relieves coughs, colds, croup, whooping cough, etc. An ideal remedy for young and old. Children like it. Sold by E. C. Pierce, Barton; F. J. Kinney, Barton Landing.
